

**Our Mission:** The Installations and Logistics Department shapes logistics plans and policies to sustain excellence in war fighting. The focus of effort is to increase Marine Air Ground Task Force (MAGTF) lethality by providing superior support through modernizing logistics processes, implementing proven technology and best practices, developing standards of performance, and fully integrating the supporting establishment as the fifth element of the MAGTF. Contracting authority resides with the Marine Corps Field Contracting System and the Marine Corps Systems Command.

**What we buy:** Plates used for mounting M240 and M249 and other secured weapons on vehicles; tactical gear, logistics services; reverse osmosis membranes; general purpose electronic test equipment instruments; winches, hoists, cranes, and derricks; and services for protection against and recovery from nuclear, biological, chemical and radiological threats.

**Contact:** Mr. Stanley Daise, Associate Director for Small Business, **Phone:** 703-604-4219

**Our Mission:** To serve as the Department of the Navy's systems command for Marine Corps ground weapon and information technology system programs in order to equip and sustain Marine forces with full-spectrum, current and future expeditionary and crisis response capabilities.

**What we buy:** The Marine Corps Systems Command is responsible for providing research, development, and acquisition of equipment, information systems, training systems, and weapon systems to satisfy all approved material requirements of the Marine Corps.

**Contact:** Mr. David Dawson, Associate Director for Small Business, **Phone:** 703-432-3946

**Our Mission:** To provide fast, efficient and innovative ocean transportation services and ships to meet the operational demands of U.S. forces worldwide. MSC delivers logistics solutions for the movement, prepositioning and sustainment of equipment, fuel, provisions and ammunition worldwide during peacetime and in war, for as long as operational requirements dictate.

**What we buy:** Ship charters; ship operating services; ship maintenance and repair; tug and port services; layberths, engineering services, information technology

**Contact:** Mr. James Kanash, Associate Director for Small Business, **Phone:** 757-443-2717

**Our Mission:** NAVSUP's mission is to deliver global logistics and quality of life support to the Navy and Joint warfighter. With headquarters in Mechanicsburg, Pa., and employing a diverse, worldwide workforce of more than 22,500 military and civilian personnel, we manage supply chains that provide material for Navy aircraft, surface ships, submarines and their associated weapons systems. NAVSUP provides centralized inventory management for the Navy's non-nuclear ordnance stockpile, and manages a wide range of base operating and waterfront logistics support services including coordinating material deliveries, contracting for supplies and services, and providing material and management and warehousing services. We are responsible for many of the Quality of Life programs that touch the lives of Sailors and their families every day, including, Navy Exchanges, Navy Lodges, the Navy Personal Property Program, the Navy Postal Service and the Navy Food Service Program.

**What we buy:** Engineering services; industrial equipment; administrative and technical services; resale items for NEXCOM; medical; valves, couplers, shafts, and cable assemblies, including components related to level 1/sub-safe program-hull connectors, torpedo tubes, antennas, periscopes, critical piping systems; jet engine components, airframe support both fixed and rotary wing; avionics; ground support equipment; and aircraft launch and recovery equipment.

**Our Mission:** NAVFAC is the systems command that builds and maintains sustainable facilities, delivers utilities and services, and provides Navy expeditionary combat force capabilities. We are fleet focused, innovative, surge enabled, ever faster, and committed to continuous cost reduction. We serve the Navy and Marine Corps unified commanders and Department of Defense agencies. Delivering best-value facilities engineering and acquisition through our six business lines: Asset Management, Capital Improvements, Contingency Engineering, Environmental, Expeditionary and Public Works.

**What we buy:** Facilities acquisition; planning, design, construction; environmental; utilities; installation engineering support; public works; facilities maintenance; real estate; transportation; anti-terrorism/force protection ashore; ocean/seafloor engineering; contingency engineering.

**Contact** Mr. Scott A. Crosson, Associate Director for Small Business, **Phone:** 202-685-9129

**Our Mission:** NAVSEA is the largest acquisition authority of the five Navy systems commands and is responsible for designing, engineering, integrating, building, procuring and supporting the Navy's ships, submarines, shipboard weapons systems and combat systems. Our goal is keeping America's Navy Number 1 in the world by providing operationally superior and affordable ships weapons systems and combat systems throughout their life cycle. To achieve this strategic objective, a team of Navy civilians, contractors and their subcontractors is required. A force of 53,000 military personnel, contract support personnel and NAVSEA engineers build and buy the Navy's ships, submarines and their combat systems.

**What we buy:** SeaPort-e acquisition engineering, technical and professional services through task orders under multiple award contracts; Ship design, construction, maintenance and repair; technical, industrial and logistic support; ship modernization and conversion; shipboard weapons systems; shipboard combat systems.

**Contact:** Mr. Sarkis Tatigian, Associate Director for Small Business, **Phone:** 202-781-3965  
Mr. Brian White, Deputy Associate Director for Small Business **Phone:** 202-781-0710

**Our Mission:** ONR was established in 1946 to foster, plan, facilitate, and transition specific research in recognition of its paramount importance to enable future naval power and the preservation of national security. ONR explores the cutting edge of science and technology (S&T) and strives to transition that S&T into acquisition programs; further amplifying ONR's role in protecting our nation's personnel and interests. ONR's workforce of highly talented military leadership, program management staff, and cadre of scientists and researchers provide technical advice to the chief of naval operations and the secretary of the Navy.

**What we buy:** Broad agency announcement science and technology projects, Small Business Innovation Research/Small Business Technology Transfer Programs; Navy technology transfer programs; patent licensing agreements; technology transition initiatives (e.g. rapid technology transition programs, rapid innovation funds); Navy SeaPort(e) support services; innovative naval prototypes; future naval capabilities (e.g.; power & energy; sea basing; sea shield; sea strike); Navy manufacturing technology; Naval Research Laboratory Programs.

**Contact:** Ms. Brenda Pickett, Associate Director for Small Business, **Phone:** 703-696-2607

**Our Mission:** To provide knowledge superiority to the U.S. Navy and other branches of the Nation's armed forces through the development, acquisition and life-cycle support of effective, capable and integrated C4ISR and space systems. To deliver FORCEnet: invent, acquire, develop, deliver and support integrated & interoperable C4ISR, business IT & space capabilities in the interest of national defense.

**What we buy:** Program manager expert in the information technology field; space technology systems; C4I combat support applications; naval networks & information assurance; communications programs (ships, shore, submarine); intelligence, surveillance and reconnaissance.

**Contact:** Ms. Faye Esaias, Associate Director for Small Business, **Phone:** 858- 537-0305, 619-524-7701

**Mission:** NAVAIR provides unique acquisition, research, development, test and evaluation; and in-service support capabilities for airborne weapons systems that are technologically superior and readily available. Using a full-spectrum approach, the command delivers optimal capability and reliability for the Sailor and Marine. NAVAIR is the principal provider for the Naval Aviation Enterprise and contributes to every warfare enterprise in the interest of national security. We embrace the privilege of our responsibility to the Sailor and the Marine in collaboration with industry, all naval aviation stakeholders and our fellow systems commands.

**What we buy:** Design and development of airframes; airborne electronic equipment; air launched weapon and underwater sound systems; air traffic control and combat ID; aircraft launch and recovery equipment; support equipment; unmanned air systems; avionics; training systems; contractor logistics support; electro-optical acoustic; sensors; modeling and simulation; engineering services; virtual environment technology; training; project management services; human performance; research/human factors integration; cybersecurity.

**Contact:** Mr. Shelby Butler, Associate Director for Small Business, **Phone:** 301-757-9083

**Our Mission:** Program Manager and Weapons System Integrator providing "cradle to grave" life cycle support for Submarine Launched Ballistic Missiles (SLBM) and associated systems that make up the Strategic Weapons System (SWS) installed on US and UK SSBNs.

**What we buy:** Engineering, administrative and technical services to include: logistics support, information support and financial support services.

**Contact:** Ms. Marita Thompson, Associate Director for Small Business, **Phone:** 202-433-7857
